INSTRUCTION ON EXTERNAL USB CHARGING PORT

US Patent No.: US 10,574,071 B2 / US 10,931,137 B2 / US 10,931,138 B2 / US 11,601,009 B2

Electronic devices such as smartphones or tablets can be comfortably charged via the external USB port.

STEPS OF CHARGING

1.1 Prepare your own charged power bank, mobile device and mobile cable.
1.2 Find the supplied USB cable inside compartment and connect it to the output of power bank, then place it into pocket.
1.3 Insert your mobile cable to the outside USB port and connect your own mobile device to start charging.

Processing of electric and electronic equipment at the end of their service life (applicable in Member States of the European Union and other European countries operating a selective waste collection system). This symbol, affixed to the product or its packaging, indicates that the product must not be processed with household waste. It must be brought to an electric and electronic waste collection point for recycling and disposal. By ensuring the appropriate disposal of this product you also help to prevent potentially negative consequences for the environment and human health. The recycling of materials helps preserve our natural resources. For further information regarding the recycling of this product, please contact your municipality. local waste disposal centre or the store where the product was purchased.
